Custom Enclosures and Controls

Gaffney-Kroese provides custom enclosure and motor control options designed and fabricated to meet your unique specifications and requirements. Design, assembly and testing of all products occur at our Houston facility. Additionally, we stock many of the enclosures, components and electrical control allowing for short lead times and rapid deliveries for your critical control requirements.

We Provide:

- Motor starters
- Pump and level control panels
- Conveyor and auger controls
- Terminal enclosures
- Motor starters (CFVNR, CFVR, NCFVNR, NCFVR)
- Lighting control panels
- VFD and soft start panels
- All types of custom controls

Enclosure Options Include:

- NEMA 12, 3R, 4, 4X, 7 & 9, 7 & 4, IP rated and ATEX

Additional Services:

- Approval and as built drawings
- 100% functionality testing prior to shipment
- Standard 12 month warranty on parts and workmanship
- Quick delivery from stock on many items

For nearly eighty years we have served the material and supply requirements of the electrical construction industry. Our client list includes many of the largest multi-national electrical constructors and industrial users worldwide.

We also provide industrial and oilfield equipment and supplies and are active in key petroleum, gas, hydrocarbon and other industrial markets.
