info@gaffney-kroese.com

Gaffney-Kroese Supply Corp. serves the material, apparatus, supply and procurement requirements of the hydrocarbon industry, many heavy process industries and related users.

We specialize in sourcing, procurement and supply of equipment destined to the oil and gas, onshore and offshore drilling and production, refining, industrial, transportation and electrical industries.

Construction companies engaged in projects from China to Saudi Arabia, as well as oil and gas companies from North Africa to the Caribbean, rely upon Gaffney-Kroese. Our integrated supply solutions span from quotations to shipment and international delivery.

For over 75 years the Gaffney-Kroese mission has been to deliver quality products and services that meet or exceed our customer's expectations. Since 1931 we have provided procurement and supply solutions to US and foreign national oil companies, offshore subsidiaries, and companies operating plants and projects worldwide.

Our current management includes professionals that have worked for many years with the former ENI group, AGIP USA. In this capacity they have functioned as project, procurement and logistics managers responsible for the North American procurement and supply requirements for worldwide major oil and gas activities.

Beyond typical procurement and supply, we offer value added technical and logistical support services including:

- Analysis of drawings, specifications and contract documents
- Product/compliance review
- Equipment and product recommendations
- Custom multiple manufacturer equipment packages
- Engineering coordination and support
- Multi-lingual support

Our logistics expertise includes export and hazmat packing, marking, tagging and containerization, document legalization, certificates of origin and conformity, as well as air and ocean shipments. We provide complete documentation of all goods, expediting customs clearance and identification of materials at the jobsite.

Our services are both complete and competitive, aiding in what can often be a difficult procurement process.

Our Product List

Actuators: Valves

Apollo-Compactorque
Bettis
Cameron
EIM
FMC Corp.
Hytork
RCS
Rotohammer
Unitorq

Anchors

Harbison Fischer
Hasco
National Production
